The Treasurer shall have complete charge of all leases and rentals of Board-owned property; write all leases and contracts; and grant all building permits.

### **THE TREASURER SHALL BE GOVERNED BY THE FOLLOWING POLICY STATEMENT:**

All building regulations and rental rates shall be established by action of the Board of Education and shall be kept on file in the office of the Treasurer.

Board property shall be made available to its greatest possible use under the law, to groups or organizations having established headquarters within the Dover City School District, so long as they do not conflict with School Board Policy.

All rental permits for the use of school facilities shall be obtained three (3) days in advance of the program.

Permit holders for facilities shall be required to carry liability insurance which will meet the approval of the Board of Education.

The Board shall reserve the right to grant use of facilities to related educational groups without cost.

A regular employee of the Board of Education shall always be present and in charge of any school facilities opened to use by the public.

The contracted fee for the use of school facilities by outside groups or organizations may be requested upon receipt of permission to use them. In addition, a deposit against damage to school facilities may be demanded at the discretion of the Superintendent.

The contracting group or organization must assume complete responsibility for:

- a. breakage or other damage to the building or equipment
- b. the enforcement of any special rules of the Board of Education

School buildings will not be opened for the use of organizations on other than school days except by the approval of the Superintendent.
